Tehipite Middle School

This middle school site is located at 630 North Augusta, and serves grades 7-8. It is first listed in the Fresno Unified School District directory as an operating middle school in 1973-74.

The term "Tehipite" is taken from a Mono Indian word, meaning "High Rock". Tehipite Dome is an important landmark in the Kings Canyon National Park. There is a Tehipite Valley in Kings Canyon Park but the term is more frequently applied to Tehipite Dome. This landmark is shown on the maps of Kings Canyon National Park by the year of 1905.
