Viking Elementary

Viking School was one of the school sites named by the Scandinavian School District Board of Trustees before that district was annexed to the Fresno Unified School District. All schools in that district were named for Scandinavian people, places or events, and the names they bore when the local district annexed them have remained the same. The term Viking refers to the early day Scandinavia explorers and adventurers who hailed from Scandinavian countries.

This school is located at 4251 North Winery and serves elementary age children in grades K-6. It first appeared in the Fresno Unified School District directory in 1960-61.
