Vinland Elementary

This school site was named by the Scandinavian School District Trustees before the Scandinavian district was annexed to Fresno Unified School District. The name denotes that area of North America presumably discovered and colonized briefly by the Viking explorer Leif Ericson, on the northeast coast of our continent.

The Vinland School serves elementary age children living in the vicinity of the school. It is located at 4666 North Maple. The school was first listed in the Fresno Unified School District directory in 1960-61.
